*Managing Editor,
Nature Magazine*

ERNEST THOMPSON SETON,
*Former Chief Scout,
Boy Scouts of America
and Chief of
The Woodcraft League
of America*

Dear Friend:-

Please realize that the trees and shrubs which we recommend to you in the accompanying booklet have been especially selected by experts as the best. They are unsurpassed for beauty and hardiness.

This selection is the result of careful investigation -- and information we have secured from leading nurseries, the New York Botanical Gardens, and the Arnold Arboretum.

This is, we are happy to say, the largest list of trees, shrubs, and perennials that the Guild has ever endorsed.

Our friends have constantly asked for advice about roses. Therefore, this year, for the first time, we recommend certain varieties of roses. The bushes that are listed have all bloomed already, and so, should bloom for you this year!

You will see that we are making a special feature of the Siberian Elm. This tree promises to take America by storm as a popular shade tree -- because we are all in such a hurry that we want results quickly.

An important part of our service is personal. Ask us any question about home tree growing that you wish. And please remember that we take a personal interest in helping you to make your home -- and America -- more beautiful.

Sincerely yours,

THE LIVING TREE GUILD.

RHP/B.
